PROFESSIONAL SUMMARY

React Frontend Developer with internship experience at Vica Web Solution, building reusable components and integrating REST APIs. Built a full-stack admin dashboard (React + Laravel) and contributing to a municipal complaints platform with Soul Association. B.Sc. in Information Technology, Al-Rashid Private University (2026). Seeking a remote junior frontend role.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, React Router, Responsive Design

Styling: Tailwind CSS, Bootstrap

Backend Basics: Laravel, REST APIs

Tools: Git, GitHub

WORK EXPERIENCE

Frontend Developer Intern | Vica Web Solution, Damascus, Syria

[Vica](#)

Built 10+ responsive UI components with HTML/CSS across 4 internal client pages, improving page structure and usability.

- Developed reusable React components shared across multiple pages, improving UI consistency and maintainability.
- Integrated REST APIs and handled asynchronous data using modern JavaScript (ES6+).

PROJECTS

Jaramana Municipal Complaints Platform | React, Web Platform

Ongoing

- Team project with Soul Association: a complaint management platform where citizens submit issues with details, location and images, and track status.
- Complaints are routed to the appropriate municipal department through a structured workflow.

Admin Dashboard | React, React Router, REST API, Laravel

[GitHub](#)

- Built a full-stack dashboard with role-based routing, dynamic data management and RESTful API integration.
- Implemented reusable components, CRUD operations and rendering optimizations.

Travel Trips Website | React, React Router

[GitHub](#)

- Developed a responsive travel booking interface with dynamic trip listings, reusable components and client-side routing.

EDUCATION

Al-Rashid Private University | B.Sc. in Information Technology

Graduated 2026
